Maintenance:	Elka Lacquered maintenance kit
Installation:	Float over underlay with D3 adhesive, full stick/batten with Elka flex, nail

### Colour and grain

**Colour:**  
Heartwood ranges from a deep, rich dark brown to a purplish black. Sapwood is nearly white to tan. Difference between heartwood and sapwood colour is great; some flooring manufacturers steam lumber to bleed the darker heartwood colour into the sapwood.

**Grain:**  
Mostly straight and open, but some boards have burlled or curly grain. Arrangements of pores is similar to hickories and persimmon, but pores are smaller in size.

**Variations within species and grades:**  
Great variety of colour and figure within species, as well as variation in colour among boards, especially in lower grades - Elka is shaded to help blend variation.

PREFINISHED	All Species	RUSTIC	A – Grade -	B – Grade 30%	C – Grade 30%	D – Grade 40%	For full grading breakdown visit <a href="http://www.elkaflooring.com">www.elkaflooring.com</a>
